

Griffin Education Trust (GET) is the main sponsor of The Griffin Schools Trust (GST) and its Members appoint the Trustees of GST.

Collectively, the governance of the Griffin Schools Trust (GST) takes the form of a coherent partnership so that it is able to provide all its schools with strong and effective leadership. GST has a responsibility to develop a short and long term perspective for the Trust as a whole, and for its constituent schools.

The diagram below shows the governance relationships within the Trust. Where schools are geographically co-located, they are governed as a group by a Local Governing Board. Where this is not the case, schools retain a single Local Governing Body.

Where circumstances demand, an Improvement Board composed of senior Trust officers and other experienced educationalists temporarily replaces Local Governance.
